Schools have a legal responsibility for purchasing a broad range of goods and services; however, purchasing effectively and obtaining best value requires time and resources, both of which we appreciate are in short supply. We, therefore, offer an effective and very competitively priced service to allow schools to deliver the efficiency savings demanded of all publicly funded organisations. Consideration must also be given to the relevant risks when procuring goods, works and services, including reputational risk. You need to ensure suppliers:

- Are financially stable
- Have appropriate and adequate insurance cover
- Fully meet legislative requirements including compliance with TUPE regulations where relevant
- Meet required health and safety standards
- Are DBS checked on certain contracts

You also need to ensure that contracts are awarded in accordance with School Financial regulations and Contract Procedure Rules and in compliance with relevant UK legislation and Public Contract Regulations 2015. New Legislation and Regulations are due to come into force in 2025.

By using the Procurement Service all the above requirements will be met
